Anathema, Angels Walk Among Us

only you can heal your life only you can heal inside,

it must have been an angel who counted out the time yes it must have been an angel who raised a knowing smile and I just couldn't reach you no matter how I tried no I just couldn't reach you so instead I ran to hide

only you can heal your life only you can heal inside. only you can heal your life only you can heal inside.

mother can you hear me? can you tell me, are you there? father can you help me? 'cause I know that you care and I don't have to fight it anymore for all those years we were dreaming and I don't have to worry anymore 'cause I found my belief in... mother can you hear me? can you tell me are you there? father can you help me? 'cause i know that you care

only you can heal your life, can heal inside only you can heal inside.
