

# Anathema, The gathering of the clouds

Searched the whole world  
Found I can't compare

(But we're here 'cause we're here  
We're here 'cause we're here)  
Searched the whole night long  
(And there's nothing to fear  
No, there's nothing to fear)

(But we're here cause we're here  
We're here 'cause we're here)  
Found out what's been going wrong  
(And there's nothing to fear  
No, there's nothing to fear)

Time is not what it would seem  
(All that I've seen, all that I feel  
All I could be, is happening to me)  
The life we live is like a dream  
(All that I've seen, all that I feel  
All I could be, is happening to me)  
Release belief, let it wash over me  
(All that I've seen, all that I feel  
All I could be, is happening to me)  
Let love reveal what I feel  
(All that I've seen, all that I feel  
All I could be, is happening to me)  
What I feel, what I feel, what I feel

Searched the whole world  
(Fight for what you believe in  
Dare to live your dream  
In this life don't be afraid of yourself  
Don't be afraid)  
Found I can't compare  
(Fight for what you believe in  
Dare to live your dream  
In this life don't be afraid of yourself  
Don't be afraid)

Searched the whole night long
