

Anberlin, Driving

And we're driving just as fast as we can
And we're racing to outrun the wind
It's just me and you and you and me
So wild and so young, bright-eyed and free

And we're trying to get out of here
As a small town romance draws ever near
And I swear we're in the movies
The highlights come when you kiss me

And the stereo sings our song
And we don't hesitate sing along

Drive to dream to live we could see the world tonight. hear the hope tommorow we could see the w

And we're miles from the middle of nowhere
And neither of us seems to care
And that's why I love you so-o-o
So shut your mouth girl no one has to know
And times seems to drip like Dali
And neither of us has a place to be
So once and forever tell me all, tell me all of your dreams

And the stereo sings our song
And we don't hesitate just sing

Drive to dream to live we could see the world tonight. hear the hope tommorow we could see the w

Drive to dream to live we could see the world tonight. hear the hope tommorow we could see the w

Is this what driving brings?
All the while we're singing off key

Is this what driving brings?
All the while we're singing off key

And we're driving just as fast as we can
And we're racing to outrun the wind
And the stereo sings our song
We don't hesitate just sing along
And the stereo sings our song
We don't hesitate just sing

Is this what driving brings all the while we're singing off key?

Is this what driving brings
All the while we're singing off key

Is this what driving brings...
