

# Anberlin, Uncanny (Bonus Track)

Airports to Amsterdam  
There's nothing that we can do now  
I'm convinced, oh, that you're right  
You're right where you belong,  
Beside me, to remind me  
Did you ever think this far behind me  
You would see the world for what it was  
And who we really were  
Oh they love us American boys  
Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by  
Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world  
Trains to Tokyo,  
Staring out windows,  
A place we've never been  
While soundtracks play in backgrounds  
To the stories of our lives  
Non-fiction, oh envision,  
if we never met and what we missed  
And never really learned  
Pacific Standard Time  
Oh they love those American boys  
Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by  
Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world  
Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by  
Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world go by  
Anywhere, say anywhere  
As long as I'm with you  
Anything, ask anything  
We'll watch the world
