

# Ancient Rites, From Beyond The Grave

[Bonus Track]

My body is blown  
My soul is worthless  
This keeping in love with you  
Forever and above all

From beyond the grave

Just as I promise you who ever was alive  
Death will take away  
My heart is haunting for the flesh  
Forever is it you

From beyond the grave

You will haunt it now  
All I need is to follow the death

From beyond the grave

My heart is looking for the death  
From beyond the grave  
It shows me to go to hell
