

And One, Body Company

the silence of a queer
will drown the atmosphere
until you play your own tone

there is nothing to declare
it's a wireless affair
we never tried to understand
why don't you dress me like a fan

sex will cover your black machinery
let me inside - let me inside
welcome to your own body company
let me inside - black tight
you are strong lets bite in harmony
let me inside - let me inside
so welcome to your own body company
let me inside - black tight

we talk of look and style
agreements for a while
when i prefer to ease your pain
you break me down and play insane

sex will cover your black machinery
let me inside - let me inside
welcome to your own body company
let me inside - black tight
you are stronger lets bite in harmony
let me inside - let me inside
so welcome to your own body company
let me inside - black tight
sweat and trouble in east of germany
let me inside - let me inside
so welcome to your own body company
