

And One, One CREATURES

We're back to creature
Very hard to understand
I can't imagine how it happened
Impossible to comprehend

I feel the danger
What are things coming to
They shut their eyes go into hiding
There's no god for me and you

Why are we creatures
It's our natural way
Why are we creatures
I hear it day by day

I call you creature
And I'm not behind the times
Do please forgive me, I'm a rebel
I hit you right between the eyes

Why are we creatures
It's our natural way
Why are we creatures
I hear it day by day

With all my power
Against the wall of decadence
You'll shut your eyes go into hiding
Time to have some influence

Why are we creatures
It's our natural way
Why are we creatures
I hear it day by day
