

# And One, Only One

Nothing would be better  
When you turn away  
Give me a second chance  
So let me stay

The smile in your face  
Tells it for sure  
I want to be with you  
No matter rich or poor

No matter rich or poor

Whats the reason why  
You dont talk to me  
The tenderness you giving me  
Makes me free

Ive got that feeling  
Of golden times  
But I see everthing  
What glitters isnt gold

No matter rich or poor

Youre the only one in my dreams  
Youre the only one so hear my screams  
All the things seem to blend  
When I touch your skin and hold your hand
