

And Then I Turned Seven, I Need You

I can't get you outta my mind
Cause i've been think 'bout your smile

And i've been thinking about your hands
I've been thinking about your touch
I've been thinking going crazy
I've been thinking way to much
I've been thinking about you and me
How we work perfectly together
And when our lips, they kiss
It's just keeps feeling better
