

# ...And You Will Know Us By The Trail Of Dead, Let It Dive

Now that our ties are severed  
As we WAVE goodbye  
Let us not wonder whether  
We are ready to take the dive

Let it dive, let it die, let it fade out of sight  
Let it drag us down, let it fade

Grieve, but not grieve together  
Mourn with nothing to say  
Gone are those times forever  
Lost are those sweet warm other days

Let it dive, let it die, let it fade out of sight  
Let it drag us down, let it come between you and I  
Let it dive, let it die, let it fade

Were we born to despair  
Deeds done but not forgiven?  
There will always be something there  
As long as one of us goes on living

Let it dive, let it die  
Let it fade out of sight  
Let it drag us down, let it come between you and I  
What's done is done, no reason to apologize  
Let it dive, let it die, let it fade
