

Andersson & Gibson, Anything But You

Hey now, where did it go?
I think we lost it somewhere down the road
Hey now, what's going on?
Let's find our footprints and follow them back
Oooh

Hey now, don't be afraid
Let's find the demon and spell out his name
Hey, let's do what it takes
To find what's missing and put it in place

I don't care 'bout anything but you now, baby
I don't care about anything but you
I don't care 'bout anything but you now, baby
I don't care 'bout anything but you

Hey, I want you to know
I'm getting dressed now for winter and cold
Might be headed in snow
Don't have a road map, but hey, I've got you

I don't care 'bout anything but you now, baby
I don't care about anything but you
I don't care 'bout anything but you now, baby
I don't care 'bout anything but you

Might be blisters, might be pain
We're gonna get lost nine times out of ten
There's a rainbow in the rain
We're gonna get wet and cold, but home again

Oh, do do do do, doo do
Do do do do, doo do
Do do do do, doo do
Do do do do, doo do
Do do do do, doo do
Do do do do, doo do
Do do do do, doo

I don't care 'bout anything but you now, baby
I don't care about anything but you
I don't care 'bout anything but you now, baby
I don't care 'bout anything but you
