

Andrea True Connection, What's Your Name, Wh

I went dancin' at the disco last night
I saw this guy, I think I saw the light
I had to find out who he was, who he was
I had to find out, I had to find out
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
I couldn't believe he was lookin' my way
He turned to his friend, this is what I heard him say
"Who is that girl? Who is that girl?
I've got to find out, I've got to find out"
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
I've got to find out, I've got to find out
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
I've got to find out, I've got to find out
As I walked up, I gave him my big grin
He looked me up and down and then he looked again
And then he stared at me straight in the eye
He said the words as
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
I've got to find out, I've got to find out
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
I've got to find out, I've got to find out
What's your name, what's your number?
What's your name, what's your number?
What's your name, what's your number?
Oh, yeah, I gave you my number
What's your name, what's your number?
What's your name, what's your number?
