

Andreas Johnson, Forever Needed

As I lay back
in my deepest confession
I've come to depend on you
again-my friend
You with the bright eyes,
you with the world in your pocket
then me, just waiting for you
to come around and say
and you say
(Well well well) wait
don't ever leave me
I wanna live my life like this,
forever needed
(Now) wait
don't ever leave me
I wanna live my life like this,
forever needed
As I lay down
with your spirit
to guide me
No I won't change a thing
until you come around here
You with your great smile-now,
you with those beautiful blue
and then me just waiting for you
to come around and say
and you say
(well well well)wait
don't ever leave me
I wanna live my life like this,
forever needed
now wait
don't ever leave me
I wanna live my life like this,
forever needed
On a bad night,
you came around
with your gentle way
to see me thru
Now you with the bright eyes
and me with the world
in my pocket and we could really
get lost tonight
if you say
wait, don't ever leave me
I wanna live my life like this,
forever needed
