

# Andreas Johnson, My Love (Song For A Butterfly)

The way you crash into my space  
The way you dance into the light  
A butterfly beyond my reach  
Your beauty wears me out tonight  
It tears me up inside  
My love if you were my love  
If I was your star  
If you were my love I would never let you down  
The way you drown in his arms into  
The way you keep him satisfied  
A fatal kiss a lethal scent  
Your colours fade to black and white  
I lose myself so fundamentally  
My love if you were my love  
If I was your star  
If you were my love I would never let you down  
Feel my love  
Seek my love tonight  
The way you fall before his feet  
The way you dance into his light  
A butterfly  
My love  
If you were my love  
If I was your star  
If you were my love I would never let you down  
Love if you were my love  
If I was you star if you were my love  
I would never let you down  
Never let you down  
Never let you down
