

Andreas Johnson, My Love (Song To A Butterfly)

The way you crash into my space
the way you dance into the light
a butterfly beyond my reach
your beauty wears me out tonight
it tears me up inside
my love if you were my love
if I was your star
if you were my love I would never let you down
the way you drown in his arms into
the way you keep him satisfied
a fatal kiss a lethal scent
your colours fade to black and white
I lose myself so fundamentally
my love if you were my love
if I was your star
if you were my love I would never let you down
feel my love
seek my love tonight
the way you fall before his feet
the way you dance into his light
a butterfly
my love
if you were my love
if I was your star
if you were my love I would never let you down
love if you were my love
if I was you star
if you were my love
I would never let you down
never let you down
never let you down
