Lay your love one me
Lay your love one me
Let your safety fall
Let your safety fall
Lay your pride on the line
Lay your pride on the line
No ones keeping score
No ones keeping
You are away from me
All the fair the dark can be the downfall
It's our enemy
Who are you trying to blame
It's no ones fault
Cause inside of me
I love you to the core

If you leave beside the corners of my mind
Summer salt into my emotions
I'm a river till' you take the day
Ocean
Ocean

Keep your lips on me
Keep your lips on me
Steady to the shore
Steady to the shore
Crash into the lines
Crash into the lines
Truth will keep us on
Truth will keep you
Away from me
All the fair the dark can be the downfall
It's our enemy
Who are you trying to blame
It's no ones fault
Cause inside of me
I love you to the core

If you leave beside the corners of my mind
Summer salt into my emotions
I'm a river till' you take the day
