

# Andrew Belle, Open Your Eyes

Open your eyes now  
Open your eyes now  
It's time to see  
If you can reach me  
Open your eyes now  
Open your eyes now  
It's time to leave  
It's time to leave me  
Open your eyes now  
Open your eyes now  
It's time to see  
If you still believe me  
Open your life now  
Open your life now  
I'll try to be  
All that you need me  
To be  
She'll be a star now  
I will follow her lead  
She'll be a scar now  
I will still let her bleed  
Open your eyes now  
Open your eyes now  
Try to speak  
Like you can see me  
Open your eyes now  
Open your eyes now  
I'll try to be  
Almost everything  
You need me to be  
She'll be a star now  
I will follow her lead  
She'll be a scar now  
I will still let her bleed  
All over me  
She'll be a star now  
She'll be a scar now  
She'll be a star now  
She'll be a scar now  
She'll be a star now  
She'll be a scar now  
She'll be a star now  
She'll be a scar now  
She'll be a star now  
She'll be a scar now  
She'll be a star now  
She'll be a scar now  
I will let her bleed  
All over me  
All over me
