

# Andrew Jackson Jihad, Freedom Tickler

You are shit and you know it  
Your life is garbage and you show it  
You will die soon in the ball pit  
I'll leave you unsupervised for a minute  
You make drugs look like candy  
And you are not even worth it  
When you were born I tried to prevent it  
With heroin and meth and even weapons  
And when you came out I said goddammit  
You make drugs look like candy
