

# Andrew Lambrou, Break a Broken Heart (Cypr - p

The lights went out  
I hit the ground  
You didn't mind that I was bleeding out  
You filled my life  
With minor songs  
I loved you but you loved to do me wrong  
I miss your kiss, gasoline and a matchstick  
Red Lights, flashes, rising out of the ashes  
I see you  
For who you are  
But you can't break a broken heart

You lift me up and leave me in the gutter  
Tear me up and move on to another  
I'm torn apart but I am a survivor  
You can't, you can't break a broken heart  
No-o-o  
You can't break a broken heart  
No-o-o

An all-time low  
But I'll get by  
And over you I'll find the highest high  
You did your best  
To do your worst  
I got used to all the ways it hurt  
Feel the fever telling me that I need her  
Science fiction turning into an addiction  
I see you  
For who you are  
But you can't break ... a broken heart

You lift me up and leave me in the gutter  
Tear me up and move on to another  
I'm torn apart but I am a survivor  
You can't, you can't break a broken heart  
No-o-o  
You can't break a broken heart  
No-o-o

Oh I miss your kiss, gasoline and a matchstick  
Red Lights, flashes, rising from the ashes  
You lift me up and leave me in the gutter  
Tear me up and move on to another  
I'm torn apart but I am a survivor  
You can't break a  
No-o-o

Oh you can't break a broken  
No-o-o  
You can't, you can't break a broken heart  
You can't, you can't, you can't break a broken heart  
You can't, you can't break a broken heart  
You can't...  
You can't break a broken heart
