

# Andrew W.K., I Love New York City

I Love NYC

i love new york city

oh yeah new york city

[repeat]

running over, run them out

knock your barking terrier down

move by corners, move around

talk no talk, breaking you down

we are a corporation

we are a company

we cut up what we're cutting up anyway

we are your mother father

we are a final friend

it never started and it won't end

i love new york city

oh yeah new york city

[repeat]

broken faces, burning beds

deal of some from everyone did

ride or nothing, ride your head

got no fear, say you're not sad

we are a population

we are a factory

we don't do but we never did it anyway

we are your mother father

we are a final friend

you can't stop what you can't end

i love new york city

oh yeah new york city

[repeat]

oh oh oh new york

oh oh oh oh oh oh oh oh

i love new york city

oh yeah new york city

[repeat 7x]
