

Andreyana Triana, THAT'S ALRIGHT WITH ME

The hours are chasing days
Coz I let go yesterday
And how long to see
What this life could be

I don't know how people find
That I'm staying here by your side

They want take much
Just for we need
All we got is love
That's enough for me
Got all that I want
Got all that I need
As long as there's love
That's Alright With Me
That's Alright With Me

You know me now
I no one else
Coz I had to find myself
I lost in the empty place
His kiss out away my darkness days
I don't know a real fact
That I'm staying here by your side

They want take much
Just for we need
All we got is love
That's enough for me
Got all that I want
Got all that I need
As long as there's love
That's Alright With Me
That's Alright With Me

I'm drowning in the way that I love you
You know there is hard to see
And heaven knows that I am around you
Is the only place I want to be

They want take much
Just for we need
All we got is love
That's enough for me
Got all that I want
Got all that I need
As long as there's love
That's Alright With Me
That's Alright With Me
