

Android Lust, Dragonfly

Between us
Screaming, pleading
Have mercy God
No relief this strain tried true now I give up

Flutter as a dragonfly
Try and see through my eyes

Fly high there you go how low can you go

Don't you have an honest bone
Dragging down this stepping stone, I fall
Farkened little alleyway
Gutter slime this trying day, I call

Hear me as I tell you now
This is the way and this is how I've tried

Fly high there you go how low can you go

Between us strange caress
Sister brother I confess I never knew
Tried my hand in many things
Fade away now what remains I've been a fool

You were never good enough
Learned my lesson I can laugh honestly
