Andrzej Piaseczny, Ain't forget

City, bus, summer rain, heavy sky, cold in bed Felt like lost my dream, it's not the best for me Knowin' you, knowin' me, Lord we've been all we need And the only fault comin' throught our door Was love Prain'for the time Run away from your home Run away from your shade Run away, have a rest But for now don't forget any easy morning, any single day We won't fall everleast sharing any trouble But not to shame Yeah for now don't forget Any single whisper, any beauty word We won't fall everleast Live and love together another day And ever ain't forget
