

# Andy Burrows, SEE A GIRL

How to get  
To where I'm going  
Without a sound  
With no one know it  
All I can see is the hole in the ground  
Somewhere to hide  
But I don't want to be find  
Where I can stand now  
When my eyes is malted  
I FALL BEHIND  
IS NOT If you would remember  
If I get back I find something to loose  
I know I'm lost And it's all I knew  
May be the first snow

I'm understand  
We nor on our own  
You by my side  
And I I've got your cover

And I see a girl  
She's the first to know  
How far my love will go  
Still she put it on and on
