Andy Gibb, I Go For You

(written by Andy Gibb)
Oh babe , I got it crazy
We both been broken in sorrow
We need to try for tomorrow
Where our feelings start and I lose my heart to you

Oh lover, I've just discovered
My life was falling around me
I was lost when you found me
And you turned my head and my fire was fed

I go for you
You light up the darkest night
You keep shining through when ev'rything's out of sight
I go for you
You light up the darkest night
And you put all the life back in my eyes
You're making me feel like I've never felt
I never was one for a party, look at me now

(break) Oh babe , we must be crazy We could be living in heaven I'd take you there in a second Never been this far Gotta trust our hearts

I go for you
You light up the darkest night
You keep shining through when ev'rything's out of sight
I go for you
You light up the darkest night
And you put all the life back in my eyes
You're making me feel like I've never felt
I never was one for a party, look at me now

I go for you You light up the darkest night You keep shining through when ev'rything's out of sight I go for you You light up the darkest night And you put all the life back in my eyes

I go for you You light up the darkest night I keep shining through when ev'rything's out of sight I go for you And you put the life back in my eyes

I go for you
