

# Andy Griggs, It's All About The Money

Cadillac on the interstate  
Ran a biker in the ditch  
Big city lawyer calls  
Says, "son I'm gonna make you rich  
Just put your shoulder in a sling  
And your neck in a brace  
We're gonna take his butt to court  
An take everything he makes"  
Cause it's all about the money  
There's a local politician  
Said he needed our vote  
He'd put two chickens in every pot  
And pave all the county roads  
But we ain't seen that son of a gun  
Since the day he raised his hand  
We're still dodging pot holes  
Eatin' potted meat and spam  
Cause it's all about the money  
It's all about the money  
It's all about the money  
A handshake used to be  
All you used to need to make a deal, yeah make a deal  
But now they look you in the eye  
And tell you big ol' bold faced lies  
With a team of lawyers  
Are movin' in for the kill  
Cause it's all about the money  
They say they're your best friends  
As long as you're buying the rounds  
They'll tell you jokes and light your smokes  
At every bar in town  
But as soon as you hit some hard times  
And the good times disappear  
You're all alone and they're all gone  
And one thing is so clear  
It's all about the money  
It's all about the money  
All about the money  
It's all about the money  
It's all about the money  
It's all about the money
