

Ane Brun, Love & Misery

The best in me
Look at us and try to see
Look at me
I?m your love and misery
The best in you
I understand what you can do
Understand me
I?m your love and misery
You may go
It?s okay restless as you are
Rest with me
I?m your love and misery
This is true
I am fragile just like you
You and me
We are love and misery
