

# Angel, Chinese Whispers

A little secret never meant to reach me  
You made them promise but what fun would that be  
You think you say it and it disappears well  
All the things you say they seem to always  
Find a way back to my ears

Here comes trouble down the line  
Did you say that you'll be mine

[Chorus]  
You'll be talking in your chinese whispers  
Tell a little secret and they'll pass it on  
Now it's getting back to all my sisters  
Maybe I'm the girl or did it come out wrong  
Hush, hush, pass it on, never really know  
Where it started from  
But everybody says you want me  
So keep those chinese whispers comin on

I always hoped I'd get to know you better  
Wanna tell you how I feel when we're together  
I've heard your whispers now's the time to tell you  
But everytime I try I just can't make  
The words come out to let you know

Here comes trouble down the line  
Did you say that you'll be mine

[Repeat Chorus x1]

Oh, I wanna scream I wanna shout  
I wanna let this feeling out  
Let it go  
Say my name  
Come on and say you feel the same  
Don't wanna hide what's here inside  
But when I feel it coming  
I just gotta let you know

Here comes trouble down the line  
Did you say that you'll be mine

Now I'm sending back your chinese whispers  
Tellin little secrets and they'll pass it on  
Baby I'll be tellin all my sisters  
You're the one I want baby you're the one  
I said, hush, hush, pass it on  
Never really know where it started from  
But everybody knows you got me  
So keep those chinese whispers coming on

[Repeat Chorus x1]
