Angel City & Lara McAllen, Do You Know (I Go C

Time stands still in my heart
I don't know where you are
Longing for what I deny
Can we just turn it around tonight?
And do you know without you I just go crazy?
And do you know that all I think about is where you are?
And do you know that only you can save me, baby?
And do you know from going through this life all alone
When will missing you stop
Seems we lost before the start
Holding back what was inside
Can we just let it all out tonight?
Don't look back on yesterday
I believe we can find a way
Don't let hopes and dreams fade
Don't hesitate, it's not too late
I go crazy
I go crazy
I go crazy
I go crazy
And do you know without you I just go crazy?
And do you know that all I think about is where you are?
And do you know that only you can save me, baby?
Do you know?
And do you know without you I just go crazy?
And do you know that all I think about is where you are?
And do you know that only you can save me, baby?
Do you know from going through this life all alone
Do you know?
