

Angel City & Lara McAllen, Touch Me (Extended

You know how to love me
When I make love all night
I need you so bad, baby
This is where you belong
Don't make me wait so long
Hold me, baby, drive me crazy
Touch me all night long
Make me love you, kiss and hug you
Touch me all night long
Hold me, baby, drive me crazy
Touch me all night long
Make me love you, kiss and hug you
Touch me all night long
You've gone and started something
I thought I'd never find
There only seems to be one thing on my mind
And you know that I love it
When we do it right
And you know that I need it
Baby, 'cause tonight
This is where you belong
Don't make me wait so long
Hold me, baby, drive me crazy
Touch me all night long
Make me love you, kiss and hug you
Touch me all night long

Hold me, baby, drive me crazy
Touch me all night long
Make me love you, kiss and hug you
Touch me all night long
Touch me all night long
I'm gonna make it worth your while
Touch me all night long
And when I think of tonight, it makes me smile
Touch me all night long
Hold me, baby, drive me crazy
Touch me
Make me love you, kiss and hug you
Touch me all night long
Hold me, baby, drive me crazy
Touch me all night long
Make me love you, kiss and hug you
Touch me all night long
Hold me, baby, drive me crazy
Touch me all night long
Make me love you, kiss and hug you
Touch me all night long
Hold me
Touch me all night long
Hold me
Touch me all night long
