

# Angel Corpse, Into The Storm Of Steel

[Music & Lyrics Helmkamp]

Beasts of prey strike with lightning speed  
Wagons of war collide  
Metallic plague armored locusts drive  
Into the storm of steel

Exterminate - feed the battlefield hunger  
With honor that is loyalty unto death  
Cauldrons swarming spearhead boiling over  
The ironmonger's engines roar

Motorized slaughter panzers smash  
Reliquary immemorial of runic conquest  
Wincing crablike across a scarred land  
Into the storm of steel

Bombs flagellate as poisoned rain  
Corrosives soaking deep  
The skin of earth erupts in sores  
Wounds and filth unending  
Winged death - spurting flames vilify  
Splatter the Whore of Armageddon  
Guttural ejaculate - mummifying rust  
Disintegrating bones to dust

Exterminate - feed the battlefield hunger  
With honor that is loyalty unto death  
Cauldrons swarming spearhead boiling over  
The ironmonger's engines roar
