

# Angel Corpse, Reaver

Total war witchery damned conjuration  
Leather winged covens of death scar the skies  
Rivers of fire, blood and defamation  
Bloated seas of rage steep fearless eyes

Demonthrong clatter on cloven hoof  
Ten thousand exterminating angels  
War vomits writhe lust up in the throat  
Rended bodies become one with the soils

Bestial storm of mutilation  
Reaver  
Hail blasphemous revelation

Wicked regent ascends beyond  
The crimson breath of chaos  
A pestilential gloaming  
Borne on scorpion winds

Reaver...

Total war witchery damned conjuration  
Leather winged covens of death scar the skies  
Rivers of fire, blood and defamation  
Bloated seas of rage steep fearless eyes

Obey commands of ritual malevolence  
Death and life perverse unite in infamy  
The cursed few- proud bestial saviors  
Rapture: the rancid flocks perish in vain

Bestial storm of mutilation  
Reaver
