

# Angel Dust, Addicted To Serenity

Here I am  
Just a poor boys dream  
My life's lost in trouble  
You know what I mean  
Knowing the gutter  
There ain't no escape  
Life has no offers just my body is raped

All my broken promises  
Intentions that have failed  
Helped me cross the borderline  
All the screaming memories  
That I wasted in my life  
Creeping death is gonna shine

I am lost but I will find  
Just a little piece of mind  
To keep my self back in control  
Will it ever be the same  
The syrenge is calling out my name  
See myself I am addicted  
To serenity

Wasted time  
For a shot to come  
The bigger they are  
The more I'm done  
Sacred feelings  
There ain't no return  
Suicide solution  
In hell I will burn

[Bridge]  
[Chorus]
