

# Angel Dust, Coming Home

Here I am - back from nowhere  
I don't remember - everything  
I've gone too far  
There ain't nothing left

It started so softly -  
Couldn't feel anything at all  
There was no euphoria -  
Reality was so close

Then fellows and me -  
We tripped day by day  
To visit the new world -  
For the old did decay ...

My soul's flown away -  
Left an empty space  
I took a view into hell -  
But I'm coming home  
Slave me ...

Mother - please believe me  
I never want you to die  
Father, forgive me  
Your memory lives in me

My soul's flown away -  
Left an empty space  
I took a view into hell -  
But I'm coming back alive ...

I'm coming home  
I'm coming home  
Please believe me  
I'm coming home  
Deliver me ...
