

Angel, Go In, Go Hard (feat. Wretch 32)

When I go in, when I go hard
There's nobody else on my level
When I go near, when I go far
It's over, over

Never made what's easy hard
Thankful for my gift, I'ma read each card
This in my jeans, like my BB dawg
If the faith dies, give it that CPR

Always remember those days when I couldn't go play
I was singing all day
No pain, they say there's no gain
Wasn't given on no plate
I had to work hard, I was frustrated
I made mistakes and they hated
So I prayed and I know it's gonna come my way
I know
I'll be singing to the world some day

Can't give up the fight
I know wrong from right, I'ma keep it tight
Where there's darkness I can find, a light that shining bright
Cause I know when I go

When I go in, when I go hard
There's nobody else on my level
When I go near, when I go far
It's over, over
Cause I came to shut it down
Till there ain't no trace to doubt
When I go in, when I go hard
It's over, over

Check
Since I've been going in, scared of coming out
I hit him with a hit, the bloods rushing now
I feel like I'm the ish, but still it's unannounced
So when I top the charts, I ain't coming down
And my drive ain't driven by numbers
I'm from the underground, seen the best deprived buskers
I ain't got a piece of the pie
So we should think about the cake, next time we buying custard
Yeah, Hunger in my belly coulda turned my knees to jelly
Now my vision gets channeled through your telly

Can't give up the fight
I know wrong from right, I'ma keep it tight
Where there's darkness I can find, a light that shining bright
Cause I know when I go

Cause I know when I go in, when I go hard
There's nobody else on my level
When I go near, when I go far
It's over, over

Cause I came to shut it down
Till there ain't no trace of doubt
When I go in, when I go hard
It's over, over

They've been telling me what they want me to be
But I know I made a bigger promise to me
And I put it in the work so I'ma get what I deserve

One day I know

When I go in, when I go hard
There's nobody else on my level
When I go near, when I go far
It's over, over (it's over)

Cause I came to shut it down
Till there ain't no trace of doubt
When I go in, when I go hard
It's over, over

When I go in, when I go hard
There's nobody else on my level
When I go near, when I go far
It's over, over

Cause I came to shut it down
Till there ain't no trace of doubt
When I go in, when I go hard
It's over, over
