

Angel, I Don't Believe In Ghosts

No more phone calls
No more letters
No more fighting
And I'm better
Than I ever felt before

I miss you
I don't want you
I don't need you
And I got to say
I could not ask for more

But if all that's true
And it all makes since
Then I'm okay
I guess

(Chorus)
Cause I don't believe in ghosts
I won't come in superstition
But something in the air that I can't see
I swear I feel your breath
Like you're lying next to me
If you've really set me free
Tell me baby where your hiding me yeah

This is crazy
You're so clever
Cause baby I would never think
To do these things you do

Showing up in all my dreams
Teasing me until I scream
That I said "I Don't Love You"

That's not fair
It isn't right
So give me back my life

(Chorus x1)

I'm afraid to close my eyes at night
Go to bed and turn out the lights
Never know just what I'm gonna see
Never know exactly where you'll be

(Chorus x1)
