

# Angel, On And On

As time goes on,  
I feel the morning light it seems,  
Seems like I've been here far too long.  
Every time I feel this way,  
Thinking of you always makes me stay.

Chorus:

So it goes on and on and on,  
Never saying how I feel  
It goes on and on and on  
Why won't I heal??  
Said it goes on and on and on,  
Like a violent summer rain  
It goes on and on and on,  
Can you feel my pain??

Things we said that night are gone,  
Now I wish I could have told you more.  
But sometimes words seem hard to find,  
Cause now I've left myself behind

Repeat Chorus

Bridge:

Every night's the same  
I have myself to blame  
Cursing out, and callin' out to me  
Well tell myself, it took more tears it seems  
I feel the pain, coming back to me again

Solo

Repeat Chorus (2x)
