

# Angel, That's Just the Way I Am

Hey you, whatcha gonna do?  
Get out of my way 'coz the girl's coming through  
I'm proud I'll say it out loud  
Never sitting pretty, standing out from the crowd  
If I want it, I'll get it  
Better give it up 'coz you're never gonna stop me  
Having my way  
I won't change no matter what you say  
That's just the way I am  
I do it just because I can  
Anything I want to  
I'm not gonna ask you, no  
You better understand  
That's just the way I am  
Hey yeah, you say it's not fair  
I'm breakin' boys hearts and I just don't care  
So what, if I take it too far  
Waking up the neighbors, crankin' up my guitar  
If I like it, I'll do it  
Lock me in a cage and I'll break right through it  
Baby, it's true  
I won't change no matter what you do  
That's just the way I am  
I do it just because I can  
Anything I want to  
I'm not gonna ask you, no  
You better understand  
That's just the way I am  
I'm frustrating  
Taking a left when everyone else turns right  
Infuriating  
Me and my girls rockin' the house all night  
Fascinating  
Never know when I'm gonna blow your mind  
Drive you crazy as I'm takin' the floor  
You'll keep coming back for more  
That's just the way I am  
I do it just because I can  
That's just the way I am  
I do it just because I can  
Anything I want to  
I'm not gonna ask you, no  
You better understand  
That's just the way I am  
That's just the way I am  
I do it just because I can  
Anything I want to  
I'm not gonna ask you, no  
You better understand  
That's just the way I am
