

Angela Bofill, Break It 2 Me Gently

did u think that ur smile
could hide wats on ur mind
no matter how I tried
I just couldn't be so blind

we've been close
and people grow
but sometimes grow apart
theres just one thing I asked of you
if you have a change of heart

break it to me gently
if you have to then tell me lies
break it to me gently
at least to leave me with mypride
try to save the feelings
if the feelings have to die
break it to me gently
if you have to say goodbye..

you always knew that you have my heart
its still yours
if you wanna take it
