

Angela McCluskey, Like A Star

(Myspace Demo)
In your eye
I see the world go by, go by
So come on baby
Let's go ??? somehow
See it shine, see it shine

Like the stars I go by
Take your hand in mine
Come on baby
Let's take every chance
This time

In your eye
I see the world go by
My star, my star
You're my star

I know it's hard to let it shine
I know it's good when you're the one (?)
I can't believe it's coming back again
Like a star, we'll go fly
Like a star, like a star
Like a star, you're my star

Come on baby, you're my star
Come on baby, this time
Let's shine like a star
