

Angela McCluskey, Long Live I

The devil done got me
Though the doctor tried to spare me
I'm living on candy now
Got down on my bad knee
To the drip-drip of IV
Won't someone hold me as I die?
But if I die
Long live I
Long live I
Mama would you miss me?
Would you hover and caress me?
Would you hang me from the Christmas tree?
But I leave something burning here
A signal-fire, the moon and stars
Can track my fall, receive me
Love, good love
Goodbye
Bye and bye
Long live I
Long live I
And I don't wanna be your shadow
And I don't wanna know your skin
Tell them not to dig too shallow
I want to sleep in sin
Cut the sun
And steal away a piece
Long live I
Long live I
Long live I
