Angela McCluskey, She'll Get Over Loving You

(Andy White feat. Angela McCluskey / Rare LP)

In my melancholy
I feel you all the more
Watching every breath of air and
Willing you to score

You're much too young to know this time
It's not too much to see the sign
It's fun for what it's worth this time
It's not too hard
It's not too hard

She'll get over loving you
If only you would let her
She'll get over wanting you
You could be so much better

She'll get over hating you
If only you would let her
She'll get over loving you
If only you would let her

Do you understand the feeling (I could be wrong about you)
Every organ reeling (and if I am I'll still be true)
Choking me and stealing (nothing's perfect in this world)
Every particle of you (except for straight hair when it's curled)

You're much too old to waste your time
It's not too much to be unkind
It's not much fun to wait in line
It's not too hard
It's not too hard

By all accounts you should be doing better
Maybe buying houses sorry you just met her
Or maybe just move in together
Buy an irish setter sorry you just met her

She'll get over loving you
If only you would let her
She'll get over wanting you
You could be so much better

She'll get over hating you
If only you would let her
She'll get over loving you
If only you would let her

She'll get over
She'll get over
She'll get over loving you
She'll get over loving you

Do you understand the feeling (I could be wrong about you)
Every organ reeling (and if I am I'll still be true)
Choking me and stealing (nothing's perfect in this world)
Every particle of you (except for straight hair when it's curled)

You're much too old to waste your time (I could be wrong about you)
It's not too much to be unkind (and if I am I'll still be true)
It's not much fun to wait in line (nothing's perfect in this world)
It's not too hard (except for straight hair when it's curled)
It's not too hard

I could be wrong about you (I wish I was)
I could be wrong (I wish I was)
I could be wrong about you
But if I am
I'll still be loving you
