

# Angela McCluskey, This Night

This night, this static night  
The moon gives shelter from the rain  
It's not the only night  
It's not no final ending  
See your majesty  
Is falling from his shining grace  
You're just coming home  
This life, this holy life  
We take our beatings from the rainbow, the rainbow  
And god's not cutting back  
She still can shield us from the pain  
Feel that you've gone astray  
The righteous on a one way trail  
One that leads you here  
Feel like I want to stay  
And make you understand me  
Oh, 'cause fear doesn't live around here  
I'm disappearing, could we dream much longer?  
Fear doesn't live 'round here  
Fear doesn't live  
Fear, fear  
Fear doesn't live 'round here  
I'm disappearing  
Fear
