

# Angelas Dish, Save Me

Well there's something wrong right here  
Could you save me?  
Save me yeah  
Well there's something wrong right here  
And could you save me?  
Save me yeah  
Cause i don't wanna die  
Cause i don't wanna die  
Cause i don't wanna die  
Cause there's thoughts wrong in my brain  
But you change me you made me yeah  
And i will never be the same  
So could you save me?  
Save me yeah  
Cause i don't wanna die  
Cause i don't wanna die  
Cause i don't wanna die  
What happened to the world i know?  
What happened to the world i know?  
What happened to the world i know?  
What happened to it?  
Well there's something wrong right here  
Could you save me?  
Save me yeah  
There's something wrong right here  
Could you save me?  
There's something wrong inside this world  
But i know that you see me  
There's something wrong inside my head  
But i know that you love me  
Yeah there's something wrong inside this world  
But i know that you see me  
There's something wrong inside my head  
But i know that you love me  
Cause i don't wanna die  
Cause i don't wanna die  
Cause i don't wanna die  
Cause i don't wanna die  
Yeah i don't wanna die  
And i don't wanna die  
Without you God
