

Angelas Dish, Save Me

Well there's something wrong right here
Could you save me?
Save me yeah
Well there's something wrong right here
And could you save me?
Save me yeah
Cause i don't wanna die
Cause i don't wanna die
Cause i don't wanna die
Cause there's thoughts wrong in my brain
But you change me you made me yeah
And i will never be the same
So could you save me?
Save me yeah
Cause i don't wanna die
Cause i don't wanna die
Cause i don't wanna die
What happened to the world i know?
What happened to the world i know?
What happened to the world i know?
What happened to it?
Well there's something wrong right here
Could you save me?
Save me yeah
There's something wrong right here
Could you save me?
There's something wrong inside this world
But i know that you see me
There's something wrong inside my head
But i know that you love me
Yeah there's something wrong inside this world
But i know that you see me
There's something wrong inside my head
But i know that you love me
Cause i don't wanna die
Cause i don't wanna die
Cause i don't wanna die
Cause i don't wanna die
Yeah i don't wanna die
And i don't wanna die
Without you God
