

Angelcorpse, Perversion Enthroned

Born of sin and sacrifice
The tyrant seed of Germanicus
Destined for kingdoms of slaughter
Morbid revelations and incest
A viper lurking in the bosom of Rome
Wherefore forever stifles the light
He who is fallen
Witching swords and fratricide

[Chorus]

Immortalized - perversion enthroned
Canonized - champion of ruin
Serpent obscene - walls bleeding black
Sadistic god - Caligula
Walls bleed black with intrigue
Beneath the throne of veneration
Cruelty's banner full eclipse
Success through suffocation
Where brothers kill their fathers
And murdered sons insist
That the fallacy of loyalty
Invokes a serpent's kiss

[Chorus]

Immortalized - perversion enthroned
Canonized - champion of ruin
Serpent obscene - walls bleeding black
Sadistic god - Caligula

Execute

Praetorian master

Sacrificial lamb

Persecute - torment

Bloodstained hands

Command the in name of Senate and the People

Let Saturnalian rites be raised

Uphold in desecrate mockery

The rigors of defamatory praise

Proud wives condemned to harlotry

To the fornication of barbarism

Wedded to the torture despicable acts

Lust deviance and sadism

[Chorus]

Immortalized - perversion enthroned
Canonized - champion of ruin
Serpent obscene - walls bleeding black
Sadistic god - Caligula
