

Angelfish, Sleep With Me

When you walked in the room
And you smiled that smile
I was doomed
It hit me so hard
Some things are dead and buried
Some things are dead and gone
But you
You stay with me
Just carry on
Sleep with me
Some things are dead and buried
Some things just carry on
Like you
I walked out on you
I thought you were wrong
But I changed my mind
Now I feel so bad
Some things are dead and buried
Some things are dead and gone
But you
Stay with me
You'll never leave
Carry on
How long
How long
Can you carry on
Stay with me
Sleep with me
Dream of me
Sleep with me
