

Angelo Kelly, Blasphemy

You read the bible and you preach out loud
You always talk always talk about God
You use religion but turn it upside down
Your words are poison what goes around comes around
Oh it's blasphemy
This is blasphemy
It's blasphemy
What, what are you doing
Don't you know God is watching
What, what are you saying
Don't you know God is watching
You say halleluja but you don't know what it means
It ain't just a word it ain't something one should use
Well your days are numbered but you can still repent
May the Lord have mercy; have mercy on your soul
Oh it's blasphemy
This is blasphemy
It's blasphemy
What, what are you doing
Don't you know God is watching
What, what are you saying
Don't you know God is watching
What, what are you doing
Don't you know God is watching
What, what are you saying
Don't you know God is watching
What, what are you doing
Don't you know God is watching
