

Angelo Kelly, Have Faith

Will this pressure ever go away
Will the money every be to stay
Gotta pay the bills gotta buy food
The kids need new clothes
They gotta go to school
As long as we have faith God will always be right by our side
Sure things can get rough they can get tough but he will provide
Being tempted to take the easy way
In my dreams at night in my thoughts at day
You can live the truth or you can live a lie
Which ever way you choose
You're still gonna die
As long as we have faith God will always be right by our side
Sure things can get rough they can get tough but he will provide
As long as we have faith God will always be right by our side
Sure things can get rough they can get tough but he will provide
