

Angelo Kelly, If you gotta do

Hey you writing 'bout me
And you writing 'bout him
Go ahead with your pencil try to take your stand
But you will never listen never understand
The things I do, things I do
You say hey this is my job
I gotta write I gotta type it all out
I gotta put you in a box gotta call it a style
From one to five stars we'll see how lucky you are
I'm in control, I'm in control
If you gotta do what you gotta do go ahead and do
If you gotta do what you gotta do go ahead and do
If you gotta do what you gotta do go ahead and do
If you gotta do what you gotta do go ahead and do
What is true, well I guess you don't care
What is right, how much should we have to bare
Don't you worry 'bout me 'cause I understand
You're just doing what you're told for the money man
You've got no choice, you've got no choice
You sell lies because that's what you're good at
Destroy lives you're like a bloody thirsty rat
You probably started off fine and only wanted to write
About all types of stories as long as they were right
You've had your chance, you've had your chance
If you gotta do what you gotta do go ahead and do
If you gotta do what you gotta do go ahead and do
If you gotta do what you gotta do go ahead and do
